

## Article 9

### Fund targeting sustainable investment activities

## Income generation and capital preservation

In this period of inflation and rising central bank rates, investors are caught between losses on their long-duration assets and a gradual erosion in the value of their cash. The Anaxis Short Duration fund aims to generate a return above inflation by investing in short-term corporate bonds.

## Fund strategy

- Investment universe comprises corporate bonds from various credit ratings.
- Rely first and foremost on an extensive fundamental analysis of each corporate bond.
- Active management.
- The fund maintains a duration between 0 and 3 years at all times. No investment in financial sector.
- A strong sustainability policy to reduce risk and for ethical reasons.
- Favours issuers offering good visibility for a given credit rating / preference for less cyclical sectors.

FOCUSING ON TENDER CANDIDATES MAKES  
THE FUND'S STRATEGY VERY SHORT TERM

73%

Of the callable bonds are tendered  
not later than their 1st call date.

8.8 months

Average holding period of  
bonds in the portfolio until  
call or maturity.

## Anaxis, expert in the short duration strategy

- History of 15+ years of performing and resilient investment solutions.
- 5 people investment team dedicated to corporate bonds.
- Expert in corporate bonds and firm believer in:
  - Thorough credit analysis of each issuer
  - In-depth sustainability analysis to reduce risk and for ethical reasons
  - High selectivity and reduction of external risks
  - Diversification

## A strict and ambitious ESG approach

- Our commitments include protection of the environment and biodiversity, the preservation of water resources, a contribution to ecological transition, an improvement in population health outcomes, and respect for universal ethical standards.
- Our portfolios adhere to the trajectory set out in the Paris Agreement, limiting global warming to 1.5 °C.
- We aim for carbon neutrality in the portfolios by 2050, with a reduction in their carbon intensity of 7.5% per year between 2018 and 2028.
- We exclude the most harmful sectors on the basis of four criteria: greenhouse gases, pollution, healthcare and ethics.
- We avoid indirect financing of the activities of authoritarian governments through bonds issued by state-owned companies in these countries.
