PROSPECTUS

ANAXIS SHORT DURATION

*UCITS subject to
European Directive 2009/65/EC*

Part A – General features

- **Name of UCITS** : Anaxis Short Duration
- **Legal form and Member State** : FCP (mutual fund) under French law.
- **Date of incorporation and projected term:**
23 November 2010 for a term of 99 years
- **Approval date** : 29 October 2010 by the AMF (French securities regulator)
- **Contact point to obtain the Fund Articles, the latest annual report and the latest periodic report:**
Unitholders can obtain the latest annual and periodic reports within 8 business days of submitting a written request to:

Anaxis Asset Management
9, rue Scribe, 75009 Paris, France
Tel : +33 (0)9 73 87 13 20
info@anaxis-am.fr

Any additional information can be obtained from Anaxis Asset Management at this same address.

■ **Description of the categories of units :**

Unit	ISIN Code	Distribution of earnings	Currency	Eligible subscribers	Minimum initial subscription
E1	FR0010951426	Accumulation	EUR	All subscribers	One unit with an initial issue price of EUR 1 000
E2	FR0010951434	Accumulation and/or distribution	EUR	All subscribers	One unit with an initial issue price of EUR 1 000
U1	FR0010951467	Accumulation	USD	All subscribers	One unit with an initial issue price of USD 1 000
U2	FR0010951475	Accumulation and/or distribution	USD	All subscribers	One unit with an initial issue price of USD 1 000
S1	FR0010951442	Accumulation	CHF	All subscribers	One unit with an initial issue price of CHF 1 000
I	FR0010951483	Accumulation	EUR	All subscribers	EUR 500 000
I3	FR0013231420	Accumulation	EUR	All subscribers	EUR 500 000
I4	FR0013231438	Accumulation and/or distribution	EUR	All subscribers	EUR 500 000
J	FR0011011618	Accumulation	USD	All subscribers	USD 500 000
K	FR0011352202	Accumulation	CHF	All subscribers	CHF 500 000
Aforge	FR0011272160	Accumulation	EUR	Unit reserved for certain distributors, including in particular Degroof Petercam Gestion and its affiliates	with an initial issue price of EUR 1 000

The management company, employees of the management company and the employees of companies affiliated to the management company are exempted from the minimum initial subscription.

Part B – Intermediaries

- **Portfolio management company:** Anaxis Asset Management S.A.S.
A portfolio management company accredited by the AMF under number GP10000030
9, rue Scribe, 75009 Paris, France

- **Depository bank and custodian :** BNP Paribas Securities Services S.C.A.
A credit institution accredited by the ACPR (French prudential supervisory and resolution authority)

Postal address

Grands Moulins de Pantin, 9, rue du Débarcadère, 93500 Pantin, France

Registered office

3, rue d'Antin, 75002 Paris, France

Responsibilities of the depository bank

The depository bank and custodian carries out the following duties: control of the compliance of the investment decisions made by the management company (as defined under article 22.3 of the UCITS 5 Directive), monitoring of the cash flows of the UCITS (as defined under article 22.4), custody of the assets of the UCITS (as defined under article 22.5) and, in general, any duties required of it under the laws and regulations in force.

Potential conflicts of interest

Potential conflicts of interest may arise as Anaxis Asset Management has a commercial relationship with BNP Paribas Services alongside its appointment as depository (BNP Paribas Securities Services, by delegation from the management company, calculates the net asset value of the UCITS). In order to manage such situations as this, the depository has implemented and regularly updates a conflict of interest management policy, with the aim of:

- Identifying and analysing potential conflicts of interest;
- Recording, managing and monitoring conflicts of interest. To that end, the depository relies on the permanent measures put in place in order to manage conflicts of interest, such as the distribution of tasks, the separation of hierarchical and operational lines, the monitoring of internal lists of insiders and the use of dedicated IT environments. In addition, on a case-by-case basis, the depository implements appropriate preventive measures such as the creation of ad hoc monitoring lists, the creation of new Chinese walls, or the verification that transactions are properly processed and/or that the relevant client is informed. In certain circumstances, the depository may refuse to manage activities which could lead to conflicts of interest.

Delegation of functions

The depository is responsible for the safekeeping of assets (as defined in article 22(5) of Directive 2009/65/EC, as amended by Directive 2014/91/EU). In order to offer services linked to the safekeeping of assets in a large number of countries, enabling the UCITS to achieve its investment objectives, BNP Paribas Securities Services SCA has appointed sub-depositaries in countries where BNP Paribas Securities Services CA has no local presence. These entities are listed on the following website:

<http://securities.bnpparibas.com/solutions/asset-fund-services/depository-bank-and-trustee-serv.html>

The appointment and monitoring process for sub-depositaries adheres to the highest quality standards, including the management of potential conflicts of interest which may arise as a result of these appointments.

Up-to-date information relating to the above points will be sent to investors upon request.

- **Statutory auditor :** PricewaterhouseCoopers Audit
Represented by Mr Frédéric Sellam
63, rue de Villiers, 92200 Neuilly-sur-Seine, France

- **Promoters** :

 1. Anaxis Asset Management S.A.S.
9, rue Scribe, 75009 Paris, France
 2. Its Swiss counterpart Anaxis S.A.
19, rue du Mont-Blanc, 1201 Genève, Switzerland
 3. For the “Aforge” units: Degroof Petercam Gestion
44, rue de Lisbonne, 75008 Paris, France
and its affiliates

- **Delegate accounting manager** :

BNP Paribas Securities Services S.C.A.

Postal address
Grands Moulins de Pantin, 9, rue du Débarcadère, 93500 Pantin, France

Registered office
3, rue d’Antin, 75002 Paris, France

The delegate accounting manager administrates the fund (accounting, calculating net asset values) and is responsible for middle office functions.

- **Orders centralised by** :

Identity
Anaxis Asset Management S.A.S.
9, rue Scribe, 75009 Paris, France

Identity of institution in charge of receiving subscription and redemption orders
BNP Paribas Securities Services S.C.A.,
A credit institution accredited by the ACPR (French prudential supervisory and resolution authority)

Postal address
Grands Moulins de Pantin, 9, rue du Débarcadère, 93500 Pantin, France

Registered office
3, rue d’Antin, 75002 Paris, France

Part C – Terms of operation and management

1. General features

- **Type of rights attached to units** :

Each unit represents an interest in the fund’s assets is proportion to the number of units held.
- **Management of liabilities** :

All units are bearer units. No register is maintained. BNP Paribas Securities Services is responsible for the administration of the issuer's account. The fund is admitted for trading on Euroclear France.
- **Voting rights** :

As the fund is a co-ownership of marketable securities, there are no voting rights attached to the units. Decisions are taken by the portfolio management company. However, notification of any amendments to the operation of the fund is given to the unitholders either individually, via the press, or by any other method that complies with AMF Instruction No. 2011-19 of 21 December 2011.
- **Form of units** :

All units are bearer units.

- **Fractions of units** : Thousandths of units.
- **Balance sheet date** : Last trading day in December.
- **First financial year** : The balance sheet date of the first financial year is 31 December 2011.
- **Taxation** : As mutual funds are without legal personality, they are not subject to corporate tax. Unitholders are taxed as if they were direct owners of a share of the assets, according to the tax scheme applicable to them. Any capital gains and earnings generated from ownership of fund units may be subject to tax. The applicable tax scheme depends on each investor's individual situation and tax residence, as well as the fund's investment jurisdiction. Investors are advised to contact their usual advisor to learn about the conditions applicable to their personal situation.

INFORMATION ON THE FOREIGN ACCOUNT TAX COMPLIANCE ACT

In accordance with the provisions of the Foreign Account Tax Compliance Act (FATCA), which took effect on 1 July 2014, where the UCITS invests directly or indirectly in US assets, the income generated from these investments may be subject to a 30% withholding tax. In order to avoid payment of the 30% withholding tax, France and the US entered into an intergovernmental agreement under which foreign financial institutions undertake to establish a procedure for identifying direct or indirect investors that are US persons and to transmit certain information on these investors to the French tax authority, which in turn provides this information to the US Internal Revenue Service. As a foreign financial institution, the UCITS undertakes to comply with FATCA and to take any measures subject to the above-mentioned intergovernmental agreement.

2. Specific terms and conditions

- **ISIN codes** :

E1 units	:	FR0010951426
E2 units	:	FR0010951434
U1 units	:	FR0010951467
U2 units	:	FR0010951475
S1 units	:	FR0010951442
I units	:	FR0010951483
I3 units	:	FR0013231420
I4 units	:	FR0013231438
J units	:	FR0011011618
K units	:	FR0011352202
Aforge units	:	FR0011272160
- **Investment objective** : The fund seeks a gross performance 2.15% higher than 12-month interbank rates (EURIBOR or LIBOR) in the currency of denomination of the unit category in question. The corresponding net objectives (after management fees) are given below:

EURIBOR	+ 1.00% for E1, E2 and Aforge units
USD LIBOR	+ 1.00% for U1 and U2 units
CHF LIBOR	+ 1.00% for S1 units
EURIBOR	+ 1.50% for I units
EURIBOR	+ 1.40% for I3 and I4 units
USD LIBOR	+ 1.50% for J units
CHF LIBOR	+ 1.50% for K units

The administrator of the LIBOR index is the Intercontinental Exchange Benchmark Administration Ltd ("ICE BA"). Additional information on the LIBOR index is available on the administrator's website: <https://www.theice.com/iba/libor>. The administrator of the EURIBOR index is the European Money Markets Institute

("EMMI"). Additional information on the EURIBOR index is available on the administrator's website: <https://www.emmi-benchmarks.eu/euribor-org/euribor-rates.html>.

At the last update of this prospectus, the administrators of the LIBOR and EURIBOR Indices are not yet listed on the ESMA Register of benchmark administrators.

■ **Investment strategy**

- a. **Description of strategies use** : The investment objective must be achieved by the active and discretionary management of a portfolio comprised predominantly of corporate bonds.

General approach

The investment strategy is based first and foremost on an extensive fundamental analysis of private-sector bonds including consideration of ESG criteria. The investment strategy aims to build an allocation diversified from a geographical and sectorial point of view, based on the selection of individual bonds each for their own merits.

Financial analysis

We first check that the business model of the issuer is compatible with our sector exclusion policy.

The investment strategy assesses the issuer's financial solidity, development outlook and sensitivity to economic conditions, the liquidity of available issues and their legal characteristics. This analysis aims to identify the most attractive securities. It includes a comparative approach between similar securities in terms of issuer, sector, maturity, subordination rank, etc.

The financial analysis studies the business model and strategy of companies in order to determine their strengths and weaknesses. The management team aims at forecasting how activity, incomes, cash flows or financial leverage will evolve, according to the competitive environment of the companies, their market growth, the quality of their products, as well as their cost structure.

The management team also assesses the composition of the balance sheet, the assets quality, the debtors' guarantees, the expected support from unitholders, the refinancing needs, the access to capital markets, etc.

Nature of ESG criteria

The objective of our sector exclusion policy is to exclude from the portfolios' investment universe certain issuers whose business is not compatible with our goal of preserving the natural environment and improving public health.

Exclusion list

We have opted for a strong and ambitious policy that aims to have a significant impact on financial flows. Our policy targets businesses associated with fossil fuels, nuclear power, polluting products, weapons, tobacco and GMOs. The Anaxis exclusion list is represented below.

- Fossil fuels: oil exploration, production, oil refining and transport, shale gas, oil sands, hydraulic fracking, coal mines and oil or coal-based electricity production.
- Nuclear: uranium mines, enrichment of fissile material and nuclear energy production.
- Polluting industries: production of fertilisers, weed killers, insecticides, fungicides and production of plastic packaging.

- Weapons: production of weapons, munitions and military equipment, manufacturing of planes, ships, tanks and military vehicles, activities associated with the design, trade or use of this equipment, law enforcement services or military surveillance by private companies, and the manufacture of hunting weapons and any kind of personal weapons.
- Other ethical exclusions: tobacco, production of GMOs for non-therapeutic use.

Exclusion thresholds

We set a maximum threshold of 20% of turnover for exposure to excluded activities. This threshold is calculated using aggregate exposure to excluded industries, so that an issuer may be excluded even if each individual activity represents less than 20% of turnover.

Annual reports and other company statements are used as reference material for our analyses. Additional information may be drawn from other sources and by direct contact with companies in order to fine-tune our estimate of their exposure to excluded activities.

The investment committee can decide to lower the threshold in the event of aggravated environmental damages, or if a company breaches local or international standards or fails to respect its sector's best practices.

Associated activities

Our sector exclusion policy covers companies involved in broader industries closely linked to the excluded sectors in two particular situations.

1. For companies providing products or services specifically designed for an excluded sector, the usual 20% threshold is applied. Examples include oil drilling equipment or construction of coal-fired power plants.
2. We also exclude companies providing products or services with a broad range of uses, if more than 50% of turnover is generated from clients in sectors that are not in line with our policy. Examples include chemical additives used for water treatment and hydraulic fracking, polymers used in the manufacture of plastic packaging, and various other materials.

At the discretion of the investment committee, an exception can be made for legitimate services including technical surveillance of installations, health and safety, rescue, fire protection and best practices training. These businesses are not excluded, even if the clients operate within the sectors in question.

Controversial weapons

With regard to controversial weapons, our sector exclusion policy is not based on any thresholds or level of activity. The exclusion policy is applied even if the controversial activity is marginal within the companies in question.

Our exclusion policy covers companies directly or indirectly controlling another company involved in this line of business, for example if they hold a majority of voting rights, are a reference shareholder or exercise significant economic influence.

- therapeutic.

With regard to controversial weapons, our sector exclusion policy is not based on any thresholds or level of activity. The exclusion policy is applied even if the controversial activity is marginal within the companies in question.

Our exclusion policy covers companies directly or indirectly controlling another company involved in this line of business, for example if they hold a majority of voting rights, are a reference shareholder or exercise significant economic influence.

Geographic criteria

The investment strategy favours developed countries:

- Issuers domiciled in such countries,
- Issuers having more than half of their revenues coming from such countries,
- Issuance vehicles dedicated to the financing of groups having more than half of their global revenues coming from such countries.

Geographic exposure (geographic region of issuers)	Minimum	Maximum
Developed countries	0%	100%
Other countries	0%	10%

In the definition of the above limits “developed countries” means: countries belonging to the European Economic Area, Switzerland, United States, Canada, Australia, New-Zealand, Japan and Singapore.

The allocation to “other countries” may include issuers from emerging countries.

Sector criteria

When investing in corporate bonds, the management company seeks to avoid portfolio concentration on a specific economic sector. Maximum allocation per sector is 25% of fund’s assets.

All economic sectors may be considered. However, the fund does not invest in securities issued by banks or other financial institutions that, according to us, require a different type of analysis.

It should be noted that this exclusion does not apply to financial holding companies and financing structures sometimes used by industrial or service groups.

Rating criteria

Management favours corporate bonds.

The analysis and selection of debt instruments is made independently from rating agencies.

The “Investment Grade” category comprises securities with a minimum rating of BBB- by Standard & Poor's or Baa3 by Moody's or an equivalent rating by another recognised rating agency, or securities deemed to be of equivalent quality in the judgement of the management company.

The “Non-Investment Grade” category comprises securities with a rating below this level. Such securities are regarded as speculative in nature due to the higher credit risk attached to them. The lowest rating will be used to determine the allocation limits.

Credit risk exposure	Minimum	Maximum
Private debt – Investment Grade	0%	100%
Private debt – Non-Investment Grade	0%	100%
Sovereign debt – Investment Grade	0%	50%
Sovereign debt – Non-Investment Grade	0%	10%

The management team does not invest in companies already or soon to be in default. However, it is not obligated to sell a security issued by a defaulting company after it is included in the portfolio, should it consider that this would not be in the unitholders' best interest.

Markets

The fund may invest on the primary and secondary markets.

Tactical allocation

The investment strategy uses a macroeconomic, financial and technical analysis to define the optimal positioning of the fund. Based on this analysis, the portfolio management team may decide to hold a portion of assets in money market products, short-term government debt instruments or government bonds. It may vary the asset allocation by rating or sector.

Bond sensitivity

The investment team may change the portfolio's sensitivity to general interest rate trends within a range of 0 to 3. The portfolio management team may use interest rate swaps or futures for hedging purposes.

The credit spread sensitivity range is identical to the range indicated for sensitivity to interest rates.

Sensitivity	Minimum	Maximum
To interest rates	0	3
To credit spreads	0	3

Duration limits

The bond market can be divided up into segments based on the maturity or duration of issues: 1-3 years, 3-5 years, 5-7 years, 7-10 years, etc. The fund's duration ranges from 0 to 3 years; hence the name "short duration."

Duration is defined as the average weighted period over which interest is paid and the nominal repaid on a bond (excluding bonds in default). For bonds that can be redeemed prior to maturity at the issuer's discretion, the actual borrowing period is uncertain. The method used in this case is to determine the least favourable duration for the investor, i.e. the redemption date that results in the lowest actuarial yield ("duration to worst").

Management of foreign exchange risk

The fund's reference currency is the euro.

Foreign exchange risk generated by any investments in foreign currencies is generally hedged in favour of the euro.

Furthermore, categories of units issued by the fund and denominated in US dollar or Swiss franc are continuously hedged in order to protect investors against exchange rate fluctuations between the euro and the unit category's currency of denomination.

Foreign exchange risk is hedged via forward forex transactions or OTC derivatives. Such hedges may prove partial or imperfect. A tolerance threshold of 5% of residual exposure has been defined.

Foreign exchange risk	Minimum	Maximum
Euro-denominated Securities and deposits	50%	100%
Securities denominated in other currencies	0%	50%
Residual exposure after hedging	0%	5%

The "other currencies" which may be used are the Swiss franc, the British pound, the Danish krone, the Norwegian krone, the Swedish krone, the Japanese yen, the US dollar, the Canadian dollar, the Australian dollar, the New Zealand dollar and the Singapore dollar.

b. Categories of assets used : 1. Debt securities and money market instruments

Corporate bonds and negotiable debt securities

This category may comprise up to 100% of the fund's assets.

The issuers may be listed companies or companies whose shares are not listed because they are held by families, managers, holding entities or investment funds

These securities are generally denominated in euro. They may also be denominated in other currencies. Securities denominated in currencies other than the euro may comprise up to 50% of the fund's assets. However, foreign exchange risk is hedged under the best possible conditions and is kept below 5%.

Selected securities may be of any rank (e.g. secured or subordinated debt) and have any credit rating. Non-Investment Grade securities may comprise up to 100% of the fund's assets.

These securities may take any form: bonds and other fixed- or variable-rate securities; securities containing legal and financial clauses, such as the possibility for the issuer to recall its debt under conditions set forth at issuance, coupon enhancement clauses, coupon indexing clauses, etc.

Government bonds and similar securities

The fund may invest up to 50% of its assets in Investment Grade debt instruments issued by governments. Sovereign bonds with a Non-Investment Grade rating are limited to 10% of the fund's asset

Clarifications on the legal nature of fixed-income instruments

- Negotiable debt securities having a short-term maturity;
- Negotiable debt securities having a medium-term maturity;
- Fixed-, variable- or floating-rate bonds;
- Euro medium-term notes (EMTNs), excluding structured notes and notes with embedded forward financial instruments;
- Convertible bonds;
- Inflation-indexed bonds;
- Treasury notes.

2. Convertible bonds and related securities

The fund may invest up to 10% of its assets in convertible bonds (or related instruments). This strategy can enable the fund to take advantage of attractive opportunities in securities similar to conventional corporate bonds, with the benefit of an option on the underlying equity. In such case, the portfolio management team will ensure that the fund's overall equity risk does not exceed 10% of net assets.

3. Equities

Equity exposure is limited to 10% of the fund's assets. The fund does not purchase stocks on the market and does not take part in IPOs. However, the fund may be exposed to this asset category due to the sensitivity of convertible bonds held to the price of underlying equities. Furthermore, the fund may directly hold equities after exercising the conversion option attached to convertible bonds or following to debt restructuring. Although such direct positions are not intended to be held over the long term, the fund is not required to sell them within a predefined period.

4. Deposits

For the purpose of managing its cash holdings, the fund may carry out deposits with one or more credit institutions, within the limit of 50% of its assets. Nonetheless, it may not carry out deposits of more than 20% of its assets within the same institution.

5. Derivatives

The fund may invest in the regulated, organised or OTC futures markets for the purpose of hedging currency exposures or reducing the portfolio's bond sensitivity. Instruments used may include, in particular, futures, forward foreign exchange contracts and simple interest rate swaps. The fund's overall exposure, including derivatives, is limited to 110% of net assets. The fund will not use total return swaps.

Clarifications on derivatives

- a. Type of markets in which the fund may invest: regulated, organised, OTC.
- b. Risks to which the portfolio management team plans to expose the fund: interest rate and foreign exchange.
- c. Types of transactions, all of which are limited to the achievement of the investment objective: hedging.
- d. Types of instruments used: futures, swaps, and forward foreign exchange contracts.
- e. Strategy for using derivatives to achieve the investment objective:
 - hedging of foreign exchange risk,
 - variable hedging of interest rate risk.

6. Securities with embedded derivatives

The fund may invest in this asset category insofar as it is authorised to hold convertible bonds within the limit of 10% of its assets.

Furthermore, the corporate bonds in which the fund predominantly invests often contain clauses offering the issuer the possibility of redeeming its bonds early, or requiring it to offer early redemption to bondholders, particularly after the expiry of a certain period, subsequent to certain events or if certain accounting or financial indicators are exceeded. The conditions for exercising these options may vary, and may or may not offer compensation to bondholders.

7. OPCVM

The fund may invest up to 10% of its assets in other French or foreign UCITS. These UCITS may be managed by Anaxis Asset Management or a related entity.

8. Cash loans

The fund does not borrow cash. Nevertheless, it may have a temporary debit balance, within the limit of 10%, due to transactions related to the fund's payment flows: investments, divestments and liabilities transactions.

9. Securities lending and borrowing

None.

■ **Contracts constituting financial guarantees:**

None.

■ **Risk profile**

: Your money will be predominantly invested in financial instruments selected by the portfolio management company. These instruments will be subject to market trends and developments.

a. **Main risks**

: Capital Risk. The fund does not offer any guarantee or protection. There is a risk that subscribers will not recover all of their initially invested capital.

Credit risk. This is the potential risk that the issuer's rating will be downgraded, which may lead to a decrease in the price of the security and thus the fund's net asset value (NAV). Furthermore, subscribers should note that investments in low-rated or unrated securities generate higher credit risk.

Interest rate risk. When interest rates rise, bond prices fall. These fluctuations can lead to a decrease in the fund's NAV. The portfolio's sensitivity may vary within a range of 0 to 3.

Risk linked to discretionary portfolio management. As the fund is managed on a discretionary basis, there is a risk that the portfolio management team will not

select the top-performing securities. Consequently, the fund may underperform its investment objective and the investment choices made may lead to a decrease in the fund's NAV.

Risk linked to derivatives. The use of derivatives may lead to specific losses, e.g. due to inappropriate hedging in certain market circumstances. Such losses may lead to a decrease in the fund's NAV.

Counterparty risk. This risk arises from the use of financial contracts negotiated over the counter with market counterparties. These transactions expose the fund to the risk of default by one or more counterparties and may lead to a decrease in the fund's NAV.

b. Ancillary risks

: Foreign exchange risk. Up to 50% of the fund's assets may be invested in securities denominated in currencies other than the fund's reference currency (the euro). In addition, the fund offers unit categories denominated in US dollar or Swiss franc. The associated foreign exchange risk is kept below 5% by means of appropriate hedging transactions. However, the residual currency risk exposure may lead to a decrease in the fund's NAV.

Equity risk. Up to 10% of the fund's net assets may be exposed to the equity market. This limit is defined as the sum of direct and indirect exposures via convertible bonds or UCITS. The fund's NAV will decrease if this market declines.

Risk associated with holding convertible bonds. Up to 10% of the fund's net assets may be exposed to the convertible bond market. The value of convertible bonds depends on several factors such as interest rate levels, changes in prices of underlying securities and changes in prices of embedded derivatives. These various factors can lead to a decrease in the fund's NAV.

Risk linked to investments in UCITS. Up to 10% of the fund's net assets may be invested in other UCITS. The liquidity and capital risks associated with such potential investments may lead to a decrease in the fund's NAV.

Risk linked to emerging countries. The fund may invest up to 10% of its net assets in emerging markets. Such markets may experience sharp price variations; in addition, their operating and supervisory conditions may differ from the standards prevailing on the major international markets.

Inflation risk. The fund may be exposed to inflation risk, i.e. a widespread increase in prices.

Liquidity risk. Under very difficult market conditions, the fund may, due to an exceptionally high volume of redemption requests or due to other exceptional circumstances, be unable to honour redemption requests according to the conditions indicated below. In such case, the portfolio management company may, in accordance with the fund's Rules and in the investors' best interest, suspend redemptions or extend the settlement period.

■ **Guarantee or protection**

: In the context of transactions on OTC derivative instruments, the fund is required to receive or grant financial assets as collateral. The financial guarantees received are intended to reduce the fund's exposure to the risk of default of a counterparty. They are only received in cash. The management company does not accept guarantees in the form of financial securities.

Any financial guarantee or collateral received complies with the following regulations: they only can be placed in deposits with eligible entities or invested in high quality government bonds (provided that such transactions are with credit institutions subject to prudential supervision and the fund can withdraw at any time the total amount of cash taking into account accrued interest) or short-term money market funds.

Financial guarantees will not be reused.

■ **Eligible subscribers and typical investor profile:**

E1, E2, U1, U2, S1, I, I3, I4, J and K units are available to all subscribers.

"Aforge" units are available to investors subscribing via the promoter Degroof Petercam Gestion Finance and its affiliates.

Eligible subscribers are those seeking to invest in the corporate bond market, and targeting a gross return 2.15% above 12-month interbank rates.

The recommended investment period is one years.

The amount that is reasonable to invest in this fund depends on each investor's personal situation. To determine their personal situation, investors should consider their personal assets, regulations, current needs over the recommend-ed investment period, as well as their risk appetite or risk aversion. Investors are strongly advised to sufficiently diversify their investments so as to avoid exposing them exclusively to the risks incurred by this fund.

■ **Conditions for determining and distributing income:**

Net income for the financial year is determined in accordance with regulatory provisions and with the UCITS accounting principles.

Net income is distributed between the unit categories in proportion to their share of total net assets. However, an adjustment is made in order to assign foreign exchange hedging transactions exclusively to the relevant unit categories.

Amounts available for distribution are determined by:

1. The net income plus retained earnings, and plus or minus the balance of the income accrual.
2. The realised gain for the financial year, less costs, plus gains of the same nature for the previous financial years that have not been distributed or capitalised, plus or less the balance of adjustments of gain/loss.

For E1, U1, S1, I, I3, J, K and Aforge units, gains are capitalised.

For E2, U2 and I4 units, income actually distributed is determined each year by the portfolio management company.

■ **Frequency of distribution** : Annual for E2, U2 and I4 units.

■ **Unit features** :

Unit	ISIN code	Distribution of earnings	Currency	Frequency	Initial unit value	Minimum initial subscription	Fractional units
E1	FR0010951426	Accumulation	EUR	Daily	EUR 1 000	One unit	Thousandths of units
E2	FR0010951434	Accumulation and/or distribution	EUR	Daily	EUR 1 000	One unit	Thousandths of units
U1	FR0010951467	Accumulation	USD	Daily	USD 1 000	One unit	Thousandths of units
U2	FR0010951475	Accumulation and/or distribution	USD	Daily	USD 1 000	One unit	Thousandths of units
S1	FR0010951442	Accumulation	CHF	Daily	CHF 1 000	One unit	Thousandths of units

I	FR0010951483	Accumulation	EUR	Daily	EUR 1 000	EUR 500 000	Thousandths of units
I3	FR0013231420	Accumulation	EUR	Daily	EUR 1 000	EUR 500 000	Thousandths of units
I4	FR0013231438	Accumulation and/or distribution	EUR	Daily	EUR 1 000	EUR 500 000	Thousandths of units
J	FR0011011618	Accumulation	USD	Daily	USD 100	USD 500 000	Thousandths of units
K	FR0011352202	Accumulation	CHF	Daily	CHF 100	CHF 500 000	Thousandths of units
Aforge	FR0011272160	Accumulation	EUR	Daily	EUR 1 000	One unit	Thousandths of units

The management company, employees of the management company and the employees of companies affiliated to the management company are exempted from the minimum initial subscription.

■ **Terms of subscription and redemption:**

Central processing of orders

Subscription and redemption orders are received and centrally processed by 12.00 p.m. by BNP Paribas Securities Services and are executed on the basis of the next day's NAV, i.e. at an unknown price.

Institution in charge of receiving orders

BNP Paribas Securities Services
Grands Moulins de Pantin, 9, rue du Débarcadère, 93500 Pantin, France

Orders form

Subscription orders are accepted in quantity or amount.

Redemption orders are only accepted in quantity (number of units).

Fractions of units

Thousandths of units.

Terms of settlement-delivery

Orders are executed in accordance with the table below:

D-1	D-1	D : Day of the calculation of the NAV	D+1	D+3	D+3
Subscription orders are received and centrally processed by 12.00 p.m	Redemption orders are received and centrally processed by 12.00 p.m	Execution of the order on D	Publication of the Net Asset Value	Subscription Settlement-Delivery	Redemption Settlement-Delivery

Conditions for switching from one unit category to another, round trip

For subscriptions carried out by unitholders having submitted a redemption request recorded at the NAV on the same day and involving the same number of

units (in another unit category or in the same unit category as the subscription), no entry or redemption fees will be charged provided that the minimum amounts per transaction are observed.

Switching from one unit category to another is considered from a tax standpoint to be a redemption followed by a new subscription. The same is true for a round trip within the same unit category.

Date and frequency of NAV calculation

Daily. NAVs are calculated every day, with the exception of legal holidays in France and days on which the markets are closed according to the official NYSE Euronext calendar for Paris.

Place and conditions of publication or transmission of NAVs

The NAVs of the fund's different unit categories can be obtained from Anaxis Asset Management, 9, rue Scribe, 75009 Paris, France, and online at www.anaxis-am.fr.

3. Charges

■ **Fees and commissions** : Subscription and redemption fees

Subscription and redemption fees increase the subscription price paid by investors and decrease the redemption price. Fees paid to the Fund are used to offset the Fund's expenses in investing or divesting the assets under management. Fees not paid to the Fund go to the portfolio management company, the promoter, etc.

Fees charged to investors upon subscription and redemption

	Base	Rate
Subscription fee not paid to the fund	NAV x number of units	2% maximum
Subscription fee paid to the fund	NAV x number of units	None
Redemption fee not paid to the fund	NAV x number of units	1% maximum
Redemption fee paid to the fund	NAV x number of units	None

Operating and management fees

Operating and management fees cover all expenses invoiced directly to the fund, with the exception of transaction fees. Transaction fees include intermediation fees (brokerage, stock market tax, etc.) and the account activity fee, where applicable, that may be charged by the custodian and the portfolio management company.

The following may be charged in addition to operating and management fees:

- Incentive fees. Incentive fees are awarded to the portfolio management company when the fund exceeds its targets. They are charged to the fund;
- Account activity fees charged to the fund;
- A share of the income earned from securities lending and borrowing transactions. However, the fund does not carry out such transactions, nor any equivalent or similar transactions under foreign law.

	Fees charged to the fund	Base	Rate
1	Portfolio management fees	Net assets	E1, E2, U1, U2, S1 and Aforge units: 1.05% maximum incl. tax I, J and K units: 0.55% maximum incl. tax I3 and I4 units: 0.65% maximum incl. tax
2	External management fees	Net assets	0.10% maximum incl. tax, with any surplus covered by the portfolio management company
3	Max. indirect fees (management fees and commissions)	Net assets	The fund does not invest more than 10% of its assets in other UCITS
4	Account activity fee	Charged on each transaction	- Transactions: max. €60 incl. tax - Securities transactions: none
5	Incentive fee	Net assets	E1, E2, U1, U2, S1, I, J, K and Aforge units: 15% of net annualised outperformance above the objective. I3 and I4 units: none.

Clarifications on management fees external to the portfolio management company

Other on-going fees include fees charged for depositary services, custody of assets, centralisation of orders, transfer agency, delegation of administrative and accounting management, statutory audit, regulatory representation, regulatory registrations, etc.

The fund might not inform unitholders individually – nor offer them the option to redeem their units free of charges – in the event of an increase in management fees external to the portfolio management company less than or equal to 10 basis points per calendar year; in such case unitholders may be informed by any means (e.g. on the website of the portfolio management company, in the brochure of the UCITS). Such information should be published before the increase comes into effect.

Clarifications on incentive fees

The “net outperformance” is defined as the positive difference between the fund’s net assets, before factoring in any provision for incentive fees and after factoring in fixed management fees, and the net assets of a notional fund with an annualised net performance equal to the performance objective and recording the same subscriptions and redemptions as the fund.

With each NAV calculation, a provision in the amount of 15% (with tax) of the net outperformance or, where applicable, a provision reversal if the fund underperforms, is recognised.

In the event of redemptions, the share of the incentive fee associated with the redeemed units is permanently paid to the fund. Aside from these cases, the annual period taken into consideration when calculating incentive fees is the financial year.

Research

Anaxis AM acquires a search service only if it is necessary to make a decision in the best interest of the fund. Before acquiring the research service, managers and / or analysts verify its relevance, justify their request, and evaluate the reasonableness of this service. The application is reviewed by the RCCI. The budget is allocated to distribute the cost of research equitably among the different funds. In general, funds with similar investment strategies share the same research services. Anaxis AM collects fundraising fees in the "separate research account" (RPA), as available funds. Financial research will be charged to the fund.

Intermediary selection procedure

The team chooses intermediaries from a mandatory list of intermediaries approved by the portfolio management company in line with its internal procedures. This list is established on the basis of objective criteria, including in particular quality of service provided and pricing conditions.

Part D – Sales information

- **Distribution or earnings** : BNP Paribas Securities Services is responsible for the annual distribution of earnings, where applicable. Payment of amounts available for distribution will be made within a maximum period of five months following the end of the financial year.

- **Subscription and redemption orders:**
 Subscription and redemption orders are received and centrally processed by 12.00 p.m. by BNP Paribas Securities Services and are executed on the basis of the following day's NAV, i.e. at an unknown price.

- **Information documents** : Unitholders can obtain the latest annual and periodic reports within one week of submitting a written request to: Anaxis Asset Management; 9, rue Scribe, 75009 Paris, France; Tel: +33 (0)9 73 87 13 20; Fax: +33 (0)1 42 65 80 46.

- **ESG criteria** : The investment strategy includes social, environmental or governance (ESG) criteria. Information on this subject is provided in the fund's annual report and online at www.anaxis-am.fr.

- **Remuneration policy** : The remuneration policy of Anaxis Asset Management aims at (i) promoting a sound and efficient management of risks, and (ii) avoiding the emergence of conflicts of interest. This policy applies to all employees. It is reassessed annually. Up-to-date details of the remuneration policy, including methods for calculating fixed and variable compensations, are available on the company's website at www.anaxis-am.fr. A paper or electronic copy of the remuneration policy will be made available free of charge upon request.

- **Additional information** : Any additional information can be obtained from:
 Anaxis Asset Management
 9, rue Scribe, 75009 Paris, France
 Tel: +33 (0)9 73 87 13 20; Fax: +33 (0)1 42 65 80 46.

Part E – Investment rules

The Fund is subject to investment rules applicable to UCITS subject to European Directive 2009/65/EC. These investment rules are referred to in the French Monetary and Financial Code. Amendments to the French Monetary and Financial Code will be applied in accordance with applicable laws and regulations.

Subscribers should note that Point IV of Article R.214-21 of the French Monetary and Financial Code exempts the fund from the 5%-10%-40% rule referred to in Points I and II of Article R.214-21 of the same Code. In particular, the fund may invest up to 35% of its assets in securities issued by a given entity if said securities are issued or guaranteed by an OECD Member State, by a local authority of an EU Member State or of a State party to the European Economic Area agreement, or by an international public agency to which one or more EU member states or States party to the European Economic Area agreement belong, or if the securities are issued by CADES (*Caisse d'amortissement de la dette sociale*).

Part F – Overall risk

The method used to calculate the overall risk (including exposure via forward financial instruments) is the commitment calculation method.

Part G – Asset valuation rules

The annual financial statements are presented in the format provided for by CRC (French Accounting Regulation Committee) Regulation No. 2003-02 of 2 October 2003 on the accounting principles applicable to UCITS, amended by CRC Regulation No. 2005-07 of 3 November 2005 ratified by the Ministerial Decree of 26 December 2005.

1. Asset valuation rules

The fund complies with the accounting rules set forth by the regulations in force, including in particular the accounting principles applicable to UCITS. The portfolio's value is determined on each NAV calculation date and on the balance sheet date, in accordance with the rules given below. The terms of application are explained in the notes to the annual financial statements. The valuation is based on closing prices.

Transferable securities traded on a regulated market are valued at the closing price on the reference market. Where there is a bid-ask price range, particularly in the case of corporate bonds comprising a significant portion of the Fund's allocation, the price used will be the average of these two prices (valuation at the mid-price).

Negotiable debt securities and similar securities that are not subject to significant transactions are valued according to an actuarial method using the interest rate of equivalent or similar securities and adjusted, where applicable, for a gap representative of the features of the security being valued.

However, in the absence of specific sensitivity, negotiable debt securities with a residual lifespan of less than three months are valued using the straight line method: the premium/discount is amortised over the remaining number of days to maturity. If they are acquired less than three months prior to maturity, the interest and premium/discount are calculated using the straight line method.

UCITS and other investment funds are valued either at the last known NAV or at the last known quoted price on the valuation date.

For deposits and borrowings, the amount of the commitment earns interest in accordance with the contractual terms and conditions.

Forward financial instruments traded on a regulated market are valued on the basis of settlement prices on the valuation date for futures and on the basis of closing prices on the valuation date for options.

Forward financial instruments traded over the counter are marked to market according to the conditions set forth by the portfolio management company and presented in the notes to the annual financial statements.

Financial instruments whose prices are not observed on the valuation date or whose prices have been corrected are valued at their probable trading value under the responsibility of the portfolio management company. These valuations and their justification are transmitted to the statutory auditor when it conducts its controls.

2. Accounting recognition

The fund has opted for the euro as its accounting currency.

Transaction fees are recognised excluding expenses.

Fixed income is recognised using the redeemed coupon method.

Interest accrued on the weekend is recognised on the basis of the previous NAV.

FUND RULES

ANAXIS SHORT DURATION

Section A – Assets and units

Article 1 – Co-ownership units

Co-ownership rights are expressed in units, with each unit corresponding to the same fraction of the fund's assets. Each unitholder enjoys co-ownership of the fund's assets in proportion to the number units held.

The term of the fund is 99 years as from its incorporation, except in the event of early winding-up or extension, as provided for in these Fund Rules.

Unit categories

The features of the different unit categories and their terms of eligibility are set forth in the fund prospectus.

The different unit categories may:

- be subject to different distribution of earnings schemes (distribution or capitalisation);
- be denominated in different currencies;
- incur different management fees;
- incur different subscription and redemption fees;
- have a different nominal value;
- be systematically subject to partial or full risk hedging, as defined in the prospectus. Hedges are carried out via financial instruments aimed at minimising the impact of hedging transactions on the fund's other unit categories;
- be reserved for one or more promotion networks.

Combination or division of units

The fund may combine or divide units.

Fractional units

Units may be divided into thousandths of units (referred to as fractional units) at the discretion of the portfolio management company's Management Committee.

The provisions of the Fund Rules governing the issuance and redemption of units are also applicable to fractional units, whose value will always be proportionate to the value of the unit they represent. All other provisions of the Fund Rules pertaining to units apply to fractional units without it being necessary to specify this, unless otherwise indicated.

Finally, the portfolio management company's Management Committee may, at its own discretion, divide units by creating new units that are allocated to unitholders in exchange for their old units.

Article 2 – Minimum amount of assets

Units may not be redeemed if the fund's assets fall below EUR 300,000; where the assets remain below EUR 300,000 for thirty days, the portfolio management company shall take the necessary steps to liquidate the fund in question, or shall carry out one of the operations referred to in Article 411-16 of the AMF General Regulations (fund transfer).

Article 3 – Issuance and redemption of units

Units may be issued at any time at the unitholders' request, on the basis of their net asset value plus subscription fees, where applicable.

Redemptions and subscriptions are carried out under the terms and conditions defined in the prospectus.

Mutual fund units may be admitted for trading according to the regulations in force.

Subscriptions must be fully paid-up on the NAV calculation date. They may be settled in cash and/or financial instruments. The portfolio management company reserves the right to reject any proposed securities and, to this end, has a period of seven days from their date of deposit to render its decision. If approved, the contributed securities are valued according to the rules established in Article 4 and the subscription is carried out on the basis of the first NAV following the approval of the securities in question.

Redemptions may be made in cash.

Redemptions may also be made in cash securities. If the redemption in securities corresponds to a representative proportion of the assets in the portfolio, then only the written agreement signed by the holder must be obtained by the UCITS or the management company. Where the redemption does not correspond to a representative proportion of the assets in the portfolio, all holders must signify their written agreement authorising the holder to redeem his or her units against certain specific assets, as explicitly defined in the agreement.

However, if due to exceptional circumstances the redemption calls for the prior realisation of the assets comprising the fund, this period may be extended but may not exceed 30 days.

With the exception of inheritance or inter-vivos gifts, the sale or transfer of units between unitholders, or between unitholders and third parties, is deemed to be a redemption followed by a subscription; for third parties, the amount of the sale or transfer must, where applicable, be supplemented by the beneficiary to reach the amount of the minimum initial subscription required by the prospectus.

In accordance with Article L. 214-8-7 of the French Monetary and Financial Code, the redemption of units by the fund, as well as the issuance of new units, may be temporarily suspended by the portfolio management company when called for by exceptional circumstances and in the unitholders' best interest.

Where the fund's net assets fall below the amount established by the regulations, no units may be redeemed.

Minimum terms of subscription may be set in accordance with the conditions provided for in the prospectus.

The fund may cease issuing units pursuant to the third paragraph of Article L. 214-8-7 of the Monetary and Financial Code, provisionally or definitively, partially or totally, in objective situations resulting in the closure of subscriptions such as a maximum number of units issued, a maximum amount of assets attained or the expiry of a specified subscription period. The triggering of this tool will be the subject of information by any means of the existing holders concerning its activation, as well as the threshold and the objective situation that led to the decision of partial or total closure. In the case of a partial closure, this information by any means will specifically specify the terms and conditions under which existing holders may continue to subscribe for the duration of such partial closing. Unitholders are also informed by any means of the decision of the UCITS or the management company to either terminate the total or partial closing of subscriptions (when passing under the triggering threshold), or not to put an end to it (in the event of a change of threshold or a change in the objective situation leading to the implementation of this tool). A change in the objective situation invoked or the triggering point of the tool must always be made in the interests of the unitholders. Information by any means specifies the exact reasons for these changes.

Article 4 – Calculation of net asset value

The net asset value of units is calculated according to the valuation rules presented in the prospectus.

Contributions in kind may only consist of securities or contracts approved to comprise the fund's assets; they are valued in accordance with the valuation rules applicable to the calculation of the net asset value.

Section B – Fund operation

Article 5 – Portfolio management company

The fund is managed by the portfolio management company in accordance with the strategy defined for the fund.

The portfolio management company acts exclusively in the unitholders' interests at all times and is exclusively entitled to exercise the voting rights attached to the securities in the fund.

Article 5b – Rules of operation

The instruments and deposits eligible for inclusion in the fund's assets, as well as the investment rules, are described in the prospectus.

Article 6 – Custodian

The custodian carries out its duties in accordance with the laws and regulations in force and the duties contractually defined by the portfolio management company. It must also ensure the legitimacy of the decisions taken by the portfolio management company. Where applicable, it must take any provisional measures deemed useful. The custodian notifies the AMF of any dispute with the portfolio management company.

Article 7 – Statutory auditor

A statutory auditor is designated for six financial years, with the approval of the AMF, by the portfolio management company's governance body.

The statutory auditor certifies the accuracy and fairness of the financial statements.

Its term may be renewed.

The statutory auditor is required to notify the AMF in a timely manner of any event or decision concerning the fund that comes to its attention in the course of performing its duties which might:

1. constitute a breach of the legal or regulatory provisions applicable to the fund and liable to have significant impacts on its financial situation, income or assets;
2. jeopardise the conditions or continuity of its operation;
3. lead to the formation of reservations or the refusal to certify the financial statements.

Asset valuations and the determination of exchange rates used in transformation, merger or spin-off transactions are carried out under the statutory auditor's authority.

It assesses any contribution or redemption in kind under its responsibility, except in the context of redemptions in cash for an ETF on the primary market.

It verifies the composition of the fund's assets and other items prior to publication.

The statutory auditor's fees are agreed upon between the statutory auditor and the portfolio management company's Board of Directors or Executive Board based on an audit plan defining the due diligence reviews deemed necessary.

It attests to situations used as a basis for the distribution of interim dividends.

Its fees are included in management fees.

Article 8 – Financial statements and management report

At the end of each financial year, the portfolio management company prepares the financial statements and a fund management report for the financial year ended.

The portfolio management company prepares the inventory of the fund's assets at least once per half-year under the custodian's supervision.

The portfolio management company provides these documents to the unitholders within four months of the end of the financial year and notifies them of the amount of income to which they are entitled: these documents are either transmitted by post at the unitholders' express request or placed at their disposal at the offices of the portfolio management company.

Section C – Allocation of amounts available for distribution

Article 9 – Conditions for the allocation of amounts available for distribution

Net income for the financial year is equal to the total interest payments, arrears, dividends, premiums and prizes, directors' fees and any income related to securities comprising the fund's portfolio, plus income from temporarily available amounts and minus management fees and borrowing costs.

Amounts available for distribution by a fund are comprised of:

1. Net income plus retaining earnings and plus or minus the balance of the income accrual account;
2. Capital gains generated, net of fees, minus capital losses generated, net of fees, during the financial year, plus similar net capital gains generated during previous financial years that were not subject to distribution or capitalisation, plus or minus the balance of the capital gains accrual account.

The amounts mentioned in (1) and (2) above may be distributed in part or in whole, independently of one another. Payment of amounts available for distribution are made within a maximum period of five months following the end of the financial year.

The portfolio management company decides on the distribution of earnings.

Section D – Mergers, spin-offs, winding-up, liquidation

Article 10 – Mergers – Spin-offs

The portfolio management company may either contribute some or all of the fund's assets to another fund, or split the fund into one or more other funds.

Such mergers or spin-offs may only be carried out after the unitholders have been duly notified.

They give rise to the issuance of a new certificate attesting to the number of units held by each unitholder.

Article 11 – Winding-up – Extension

If the fund's assets remain below the amount established in Article 2 herein for thirty days, the portfolio management company notifies the AMF and proceeds to wind up the fund, unless it is merged with another fund.

The portfolio management company may wind up the fund early; in such case it notifies the unitholders of its decision and, as from this date, no more subscription or redemption requests are accepted.

The portfolio management company also winds up the fund in the event all of its units are redeemed, or if the custodian resigns from its duties, where no other custodian has been designated, or upon the expiry of the fund, unless its term is extended.

The portfolio management company notifies the AMF by post of the date and winding-up procedure selected. It then submits the statutory auditor's report to the AMF.

The term of the fund may be extended by the portfolio management company, in agreement with the custodian. Its decision must be taken at least 3 months prior to the projected expiry of the fund, and both the AMF and the unitholders must be duly notified.

Article 12 - Liquidation

If the fund is wound up, the portfolio management company or the custodian assumes the role of liquidator; failing that, the liquidator is designated by the court at the request of any interested party. To this end, the liquidator is invested with the

broadest powers to realise the fund's assets, pay any creditors and divide up the available balance between the unitholders, in cash or securities.

The statutory auditor and the custodian continue to exercise their duties until the liquidation is complete.

Section E – Disputes

Article 13 - Jurisdiction - Election of domicile

Any disputes related to the fund arising during its operation or liquidation, either between the unitholders, or between the unitholders and the portfolio management company or custodian, are subject to the jurisdiction of the competent courts.

INFORMATION FOR INVESTORS IN SWITZERLAND

Representative

The representative in Switzerland is ACOLIN Fund Services AG, Leutschenbachstrasse 50, CH-8050 Zurich.

Paying agent

The paying agent in Switzerland is the Banque Cantonale de Genève, 17, quai de l'Île, CH-1204 Geneva.

Place where the relevant documents may be obtained

The relevant documents such as the prospectus, the key investor information document (KIIDs), the statutes or the fund contract as well as the annual and semi-annual reports may be obtained free of charge from the representative in Switzerland.

Publications

Publications in respect of the investment fund will occur in Switzerland on the electronic platform of "fundinfo AG" (www.fundinfo.com). In particular, such publications include essential information for investors such as substantial amendments to the prospectus as well as the liquidation of the investment fund.

The issue and the redemption prices or the net asset value together with a footnote stating „excluding commissions“ will occur daily on the electronic platform of "fundinfo AG" (www.fundinfo.com).

Payment of retrocessions and rebates

The investment fund respectively the fund management company and its agent may pay retrocessions as remuneration for distribution activity in respect of the investment fund units in or from Switzerland. This remuneration may be deemed payment for the following services in particular:

- Handling subscriptions and redemptions;
- Providing updated legal and marketing documents;
- Providing access, or procedure of access to legal mandatory publications, or any publications of other nature;
- Clarifying any doubt and answer to the investors' specific questions regarding the products or the managing company. Contacting on a regular basis the investors to ensure the suitability of the products and services offered;
- Perform the necessary checks relatively to the "Know Your Customer" process and requirements.
- Perform trainings on client advisors regarding the products.

Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors.

The recipients of the retrocessions must ensure transparent disclosure and inform investors, unsolicited and free of charge, about the amount of remuneration they may receive for distribution.

On request, the recipients of retrocessions must disclose the amounts they actually receive for distributing the investment fund of the investor concerned.

The investment fund respectively the fund management company and its agents do not pay any retrocessions to third parties as remuneration for distribution activity in respect of the investment fund units in or from Switzerland.
